CPD Sees Reduction in DUI Crashes

CHEYENNE, Wyo.— The Cheyenne Police Department has seen a decrease in the number of DUI crashes over the past four years within the city.

Not only has the actual number of DUI crashes decreased within the city but the DUI crash rate, which takes into consideration population, also decreased.

This decrease can be attributed to the implementation of the DUI command vehicle, the addition of a full-time DUI enforcement officer and all officers being trained in Advanced Roadside Impaired Driving Enforcement (ARIDE). The DUI command vehicle has all the equipment needed to process a DUI arrest quickly and efficiently, which allows the officers to spend more time patrolling the streets. Additionally, ARIDE training provides officers more advanced training in identifying signs of impairment related to drugs, alcohol or a combination of both.

Cheyenne DUI Crash Rate per 10,000 Residents
